

Silicone free Defoamer DCA-410W

 dcachem.com/portfolio/silicone-free-defoamer-dca-410w

Introduction

DCA-410w is a silicone free defoamer for water based systems. It has strong defoaming ability and it should be introduced in grinding stage.

Physicochemical Data

- Chemical composition: silicone free polymer
- Appearance: yellow viscous liquid
- Active content: 100%
- Solvent:None

Product features

- DCA-410w defoamer is suit for water based system
- DCA-410w should be introduced in grinding stage

Application areas

DCA-410w is suit for water based system.

Addition Method

DCA-410w should be charged at the lapping stage during the produce with **0.05%** to **1.0%** dosage to gross

Packaging and storage:

25KG plastic drum, stored in a cool and dry place.

Note: The purpose of this manual is to provide basic product information to technical personnel involved in the development of coatings, inks, pesticides, and other industries. It is intended for research and reference use and does not carry any warranties. Please conduct preliminary tests to assess its suitability.
