## Introduction

---

DCA-F419W is a silicone free defoamer for water based systems. It has strong defoaming ability and it should be introduced in grinding stage.

## Physicochemical Data

---

- Chemical composition: silicone free polymer
- Appearance: Colorless, viscous liquid
- Active content: 100%
- Solvent: None

## Product features

---

- DCA-F419W defoamer is suitable for water based system
- DCA-F419W should be introduced in grinding stage

## Application areas

---

DCA-F419W is suitable for water based system.

## Addition Method

---

DCA-F419W should be charged at the lapping stage during the produce with **0.05%** to **1.0%** dosage to gross

## Packaging and storage:

---

25KG plastic drum, stored in a cool and dry place.

**Note:** The purpose of this manual is to provide basic product information to technical personnel involved in the development of coatings, inks, pesticides, and other industries. It is intended for research and reference use and does not carry any warranties. Please conduct preliminary tests to assess its suitability.
