

Silecone Leveling agent DCA-217

 dcachem.com/portfolio/silecone-leveling-agent-dca-217

Introduction

DCA-217 is the solution of polyether modified polysiloxane , it has excellent compatibility with most paint resins and has no reverse influence on recoatability. It provide mar resistance for coating film and improve the gross of the paint film.

Physicochemical Data

- Chemical composition: Polyether-modified silicone oil
- Appearance: colorless transparent liquid
- Active content: 15%
- Solvent: solvent naphtha

Application areas

DCA-217 could be used in solvent-based coatings.
