

# Leveling agent DCA-161N

---

 [dcachem.com](http://dcachem.com)

## Introduction

---

DCA-161N is a acrylic leveling agent with good leveling. It could be used in all kinds of solvent-based systems.

## Physicochemical Data

---

- Chemical composition: Acrylic copolymer
- Appearance: Colorless to light yellow transparent liquid
- Active content: 50%
- Solvent: mixed ester

## Product features

---

- DCA-161N has good leveling and excellent defoaming ability
- DCA-161N could be used in all kinds of solvent system

## Application areas

---

DCA-161N is recommended to use in the alkyd, acrylic, amino baking paint and polyurethane oil coating systems, as well as those solvent free systems.

## Addition Method

---

For best results, a dosage of 0.1-1% of the total amount is recommended, which can be added at any stage of the production process.

## Packaging and storage:

---

25KG plastic pail, stored in a cool and dry place.

**Note:** The purpose of this manual is to provide basic product information to technical personnel involved in the development of coatings, inks, pesticides, and other industries. It is intended for research and reference use and does not carry any warranties. Please conduct preliminary tests to assess its suitability.
